On August 6 there was organized the international final SET4Work project conference in Lithuania called **“Social Entrepreneurship Training – an Open Path to the Labour Market”** where the partners’ consortium from JK, Germany, Italy, Slovakia and Lithuania could present project products and results.

It is particularly heartening that almost 100 people from different Lithuanian cities and towns gathered in Šiauliai University library conference hall. Attendees of the conference had an opportunity to participate in three different workshops: *“Putting the ‘I’ in Inclusion”*; *“ECVET gives learning documentation a structure”*; *“How to Design and Develop a Successful E-learning Course/Moodle Course”*.

The workshops were led by the representatives of project partners’ organisations from JK, Germany and Slovakia.

The participants of the conference heard new ideas, performed practical tasks and discussed questions they had for the conference speakers.
